EDUCATION

Master of Computer Applications (MCA)

Coimbatore Institute of Technology

Sep 2024 – May 2026

CGPA: 9.59/10

BSc Computer Systems and Design

PSG College of Technology

Sep 2020 – May 2023

CGPA: 8.57/10

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript

Frontend: HTML, CSS, React, Tailwind CSS

Backend: Flask, REST APIs

Database: MySQL, MongoDB

ML/AI: XGBoost, scikit-learn, LLaMA, Rasa NLU, TextBlob, TF-IDF, Logistic Regression

Tools: Git, GitHub, Postman, SQLAlchemy, Groq API, Twilio API, Google Maps API

EXPERIENCE

ICU Medical – Embedded Software Intern | Chennai

Dec 2025 – Jun 2026

Developed automated C++ test cases for firmware validation of safety-critical medical device components, ensuring compliance with embedded software standards.

Authored test scripts and validation reports supporting verification activities for real-time embedded systems under IEC/ISO safety guidelines.

Digiverifier Pvt Ltd – Associate CS | Bangalore (Hybrid)

Aug 2023 – Apr 2024

Collaborated with business users to gather and enhance BI reports to accommodate evolving business needs.

Delivered quality-assured reports by conducting rigorous QA checks, resulting in a 65% improvement in customer satisfaction.

PROJECTS

AuraCare – AI Mental Health Chatbot (React, Flask, Rasa, LLaMA, MongoDB) | GitHub

Architected a bilingual full-stack mental health platform integrating Rasa NLU with LLaMA for context-aware, personalized conversation flows and TextBlob-powered real-time sentiment tracking.

Engineered secure REST APIs in Flask connecting React frontend with MongoDB, supporting multilingual input processing, mood analytics dashboard, and session persistence.

Serenova – AI Women’s Safety Platform (React, Flask, XGBoost, MongoDB) | GitHub

Trained an XGBoost route safety classifier on 100K+ crime records with 15+ engineered geospatial and temporal features, achieving 75% prediction accuracy.

Designed an NLP incident reporting pipeline using TF-IDF and Logistic Regression, integrated with Twilio API to trigger automated emergency SMS alerts in real time.

CERTIFICATIONS & ACTIVITIES

- Python & DSA (Coursera/NPTEL), SQL & Python (HackerRank Skill Certifications)
- SensAI Hackathon 2025 (HyperVerge) – 30-hour onsite AI hackathon, Ideathon 2024 ,Cryptera 2025

ACHIEVEMENTS

- Best Outgoing Student Award (PAATATHIL PONARASERI ENCOURAGEMENT AWARD), MCA
- MCA CGPA: 9.59/10
